SnapTalk

Why do thousands of PC and Mac users choose our LAN messaging, chat, and speedy file transfer solutions?

Economical:

"I've talked to lots of fellow network administrators who have spent a fortune on fancier in-house e-mail programs that are a real pain to administer. Thanks."

—Janis Hall, Publisher of Southwest Journal

Efficient:

"SnapMail is the single best purchase we have made for our school this year. Our faculty and staff LOVE it! It saves so many steps, so much paper, so much time. The faculty would absolutely be lost without SnapMail. We have had no down time, no complaints—it is just a marvelous product."

—Kris Waldren, Administrator for Lewis Unified School District, Lewis, KS

Stable:

Your product ROCKS! We've had customers using SnapMail for a few years now. It is the only program that has really weathered the storm and still works on a high percentage of machines (quite a feat!).

—Shane Williams, "Long-time lover of SnapMail," MacSuperstore, CA

User-Friendly:

My company has been using SnapMail for about four years, and it performs almost flawlessly, in comparison to many other products on the market. In addition, I'd have to say SnapMail is one of the easiest applications to use; anyone can figure it out.

—Tony Hines, KHG Advertising, Billings, MT

Productive:

As City Manager, I can attest that SnapMail is an outstanding product. Our office could not do without it. SnapMail has significantly increased productivity and improved communications. I would strongly urge anyone with a MAC network to consider SnapMail.

—William R. Drennen, City Manager, Lindsay, CA
